Re: Public Records Act Requests Received on January 30, 2019

To Whom It May Concern:

The City of Fairfield ("City") received your Public Records Act requests on January 30, 2019. Your request, comprised of four (4) unique requests, seeks a variety of statistics related to use of force incidents. In accordance with California Government Code section 6253, this letter serves as the City's written response to your requests.

Request:

1. The total number of police use of force incidents, broken down by type of force used, between 2013-2017 (separated by year).
2. The total number of people that police used force against, between 2013-2017 (separated by year).
3. The total number of police use of force complaints reported between 2013-2017 (separated by year).
4. The total number of police use of force complaints sustained between 2013-2017 (separated by year)."

City Response:

The City has located and identified 5 records that provide the information sought by your requests. These memos, drafted annually, breakdown use of force incidents by category. They have been enclosed with this letter. In addition, the City provided a brief cover letter detailing the numbers you requested. It too is enclosed with this letter.

Thank you for your request,

Dawn Shepherd

265 individual officers were involved in the 172 crime reports dealing with the use of force during 2014. The Carotid Restraint was applied on one occasion. Out of the 172 use of force reports a total of 69 suspects were injured and 24 officers were injured. Each of the cases used proper procedure in the application and documentation of the incidents.

Use of Force: Hands

The largest number of use of force incidents was recorded in the hands category. The force ranged from individuals passively resisting to individuals physically fighting with officers. This method of force was utilized 187 times. It was the sole use of force during 74 of those incidents. When hands were the sole use of force deployed, 2 officers were injured and 18 suspects were injured. Proper procedures were used in all of the incidents.
